## MiniBulk

Safe and convenient delivery and storage of corrosive chemicals.

# Improve safety, minimize risk and decrease waste.

At Univar Solutions, we understand you need to optimize every element of your business to win in the marketplace. MiniBulk service is a complete storage and delivery system designed to improve plant safety and productivity.

With this service, you minimize employee exposure to hazardous materials—allowing only trained Univar Solutions specialists to deliver product. Double containment prevents uncontained spills and protects the environment, supporting green, earth-friendly sustainability goals.

This solution also enhances productivity and reduces total cost of ownership. Drum storage is eliminated, providing space for more operative usage. By placing tanks at use points, we minimize the hazards of moving chemicals across your plant. Plus, you optimize product utilization eliminating the waste of residual product in the drum heels.

## Chemicals delivered via MiniBulk include:

- Caustic potash
- Caustic soda
- Citric acid
- Cleaning & sanitizing blends
- DEF
- Hydrochloric acid
- Nitric acid
- Phosphoric acid
- Sodium bisulfite
- Sodium hypochlorite
- Sulfuric acid
- Unilime
- And other chemicals. For a complete listing, contact your Sales Account Manager.

## Key benefits of MiniBulk.

Customize a solution based on your chemical handling and storage needs, with tanks as small as 200 gallons available

Protect your employees by minimizing exposure to hazardous materials, and reduce the potential for uncontained spills

Eliminate the need to handle drums or totes, and minimize wasted space dedicated to container storage

Eliminate container deposits, rinse charges, and heel losses
